

Commitment to
Perform

```
graph LR; A["Commitment to Perform"] --> B["Ability to Perform"]; B --> C["Practices Performed"];
```

The diagram consists of three rectangular boxes with orange borders and white backgrounds. The first box is at the top left and contains the text 'Commitment to Perform' with both words underlined. A double-lined arrow curves from the right side of this box down and then right to the top of the second box. The second box is at the bottom center and contains the text 'Ability to Perform' with both words underlined. A double-lined arrow curves from the right side of this box up and then right to the left side of the third box. The third box is at the top right and contains the text 'Practices Performed' with both words underlined.

Ability to Perform
