Hello you four,

Grandpa now has a new hardwired landline phone. Unfortunately, his old phone number was not able to be transferred.

Here is his new phone number:
[913-390-0674](tel:913-390-0674)

There are something's that need to be done to make it easier for him.

Bruce & Terri Kuhn

And you have tested that phone will work with Digital phone lines?

I have tested the phone, and it works.

Now that I know that it works, there are things that I need to do to make it easier for grandpa to answer. For example, get a cord long enough to wear the phone can be next to his chair.
